The most important sectionsy is that of the like Professor Jeffries Wyrian, than whom a more compelient anti-ority i would be difficult to name, at early as 561, Professor Wyrian because in examination of the shell because on the St. John's "fiver; in Florida." After repeated, examinations of the more important collections he came to the oppolishing that the remains found in their prove, so, far, as archaed repeated in the prove, that the moriant dwellers on the St. John's were can tibule. After describing in instely the position of the homes mearthed, he suggests the reasons that lead him to this incoision. We cannot do before than to cite he suggests the reasons that lead him to this steels on. We cannel do before than to cite these four reasons is brief:

1. The bones were not deposited there at an ordinary burial of a dead body. In this raise, after the dasay of the flesh, there would have remained a certain order in the position of the parts of the skitleton. The bones would be entire, as n other burials. In the cases here described they were, on the contrary, scattered in a disorderly manner, accurate the manner of the proper internation of the contrary.

Swift's, Specific has cured me of Scrofula, which is bereditary in my family. I have suffered with it for many years, and have tried a great many plyticians and all sorts of treatment, but to no purpose, and when I began to take Swift's Specific I was in a horrible condition; but, thanks to this great rundy, I am it of the chease. There is no doubt that it is the greatest medicine in existence, and I hope any who doubt will write to me.,
